6.	CLASS 1 Explosives: IMPORTANT	. 4		
7.	Examples of Purchase Order (PO):	. 5		
8.	Examples packing, marking & documentation:	10		

## Preamble:

This document describes the requirements for deliveries to Solstad Offshore ASA and any of its subsidiaries with delivery address to any of Kuehne + Nagel warehouses in Norway.

Following these instructions will secure efficient delivery, documentation handling, storage and forwarding of Ship spares/goods ordered from your company.

Due to the many different import/export regimes worldwide, it is of the utmost importance that the below instructions with regards to delivery, documentation and packaging are followed accordingly. This to ensure smooth and correct supply chain for all our vessels.

Solstad Offshore ASA uses Kuehne + Nagel Marine logistical solutions, where Kuehne + Nagel is handling most inbound deliveries, document control and creation, storage and forwarding to Solstad Offshore ASA vessels globally.

## 1. Instructions for delivery

Seller shall organize the delivery according to the delivery address stated on the Purchase Order.

## 2. Pre-alert

To secure a good and efficient flow of necessary and required documentation between the seller and Kuehne + Nagel, it is expected that the required and necessary documentation is sent in advance. The benefit will be reduced number of OS+D's and reduced time to resolve any OS+D's raised by either missing or wrongful documentation. This will again lead to an improved flow of goods to the designated vessel.

#### Pre-alerting the documents to Kuehne + Nagel

**IMPORTANT:** Pre-alert mail is ONLY for sending documents.

E-mail must be sent to: <u>knnor.ml-documents@kuehne-nagel.com</u>

E-mail Subject must contain

- Full Vessel Name
- Solstad Offshore ASA PO Number
- Supplier Name

Required documents to be included in the pre-alert:

- Commercial/Pro-Forma Invoice
- Packing List
- SDS Documentation (if applicable)

#### Example:

۳ <b>ـــــ</b>	To <u>.</u> <u>C</u> c S <u>u</u> bject	knnor.ml-documents@kuehne-nage			-

## 3. Documentation:

It is *clearly* stated on the PO the requirements for documentation.

✓ The description of contents section of the waybill & commercial invoice should state: "ship spares in transit" or "ship stores in transit"

The following documentation **<u>shall</u>** be included in <u>**all**</u> consignments:

MUST BE ATTACHED IN A PLASTIC/WATERPROOF POCKET ON THE OUTSIDE OF THE PACKAGE	
<ul> <li>English Proforma invoice and packing list including:</li> <li>o corresponding customs tariff code (Ref: HS-Code),</li> </ul>	
<ul> <li>O Country of Origin (COO) for each line item.</li> <li>✓ Safety Data Sheet (Ref: REACH-regulation / GHS / CLP)</li> </ul>	

The following documentation **<u>shall</u>** be included in all consignments **<u>when</u>** applicable:

- ✓ Material Declaration and Supplier Declaration of Conformity (Ref: EU SRR / HKC)
- ✓ For marine equipment bearing the wheel mark TM; EU Declaration of Conformity (Ref: MED)
- ✓ Materials containing asbestos **shall not** be delivered (Ref: SOLAS 11-1/3-5)
- ✓ Materials containing Ozone-depleting substances (CFC) <u>shall not</u> be delivered. (Ref: MARPOL VI/12)

### 4. Packing:

- ✓ All deliveries shall be individually packed for each PO and clearly marked with the PO-number and vessel name.
- ✓ All deliveries shall be compliant with the ISPS code and any other relevant regulations.
- ✓ Packing Material: Any wood used (Pallet/Crates) must be according to ISPM 15.
- ✓ Goods delivered on pallets should if possible be packed and strapped on 80x120 cm (EUR pallet) and total height should not be more than 100 cm.

## 5. Dangerous Goods: IMPORTANT

#### Instructions for delivery:

ALL dangerous goods shall be **<u>pre-alerted</u>** prior to transportation and delivery.

Pre-alerting of dangerous goods:

The following correct information must be sent in advance:

- ✓ English Proforma / Commercial Invoice
- ✓ Packing List including corresponding customs tariff code (Red: HS-Code)
- ✓ Safety Data Sheet (Ref: REACH-Regulation/ GHS / CLP)
- ✓ Copy of the ADR/transport document
- ✓ For Lithium Batteries, Test certificate must be included

These documents must refer to the PO number and ship name.

The documents shall be sent to the following e-mail depending on the requested delivery address:

Bergen: <u>Marinebgo@kvalitetstransport.no</u>

Stavanger: <u>kn.warehouse.svg@Kuehne-Nagel.com</u>

Gardermoen: warehouse.osl@kuehne-nagel.com

Note: Dangerous goods transported to Kuehne + Nagel without pre-alert will be rejected upon arrival.

## 6. CLASS 1 Explosives: IMPORTANT

With regards to **Class 1 explosives (class 1. 3 G and 1.4 S / G)** Kuehne + Nagel will only receive these at their terminal at Gardermoen. These goods require a pre-approval prior to delivery at our terminal. That means that by pre advising the volume/amount and dg class, one shall receive a **written confirmation from Kuehne + Nagel** informing that we may receive the goods, prior to delivery at our terminal.

E-mail shall be sent to: <u>warehouse.osl@kuehne-nagel.com</u>

Note: Dangerous goods transported to Kuehne + Nagel without pre-alert will be rejected upon arrival.

# 7. Examples of Purchase Order (PO):

Solstad Offshore ASA use Tero Marine (TM) as a purchasing system for the vessels, the company is also using ShipServ as an e-commerce tool to be efficient in its purchasing process with suppliers. This means that Solstad Offshore ASA can issue Purchase Orders in two different formats. The information and content on the Purchase Orders are identical, just slightly different setup.

The Purchase Order has important and critical information for deliveries:

## The below **<u>important</u>** information is found on both PO templates:

#### Please note the following:

- ✓ All shipments and correspondence shall be clearly marked with ships name and PO-number.
- ✓ Please note the Incoterms ® 2020 stated on the PO and delivery accordingly.
- ✓ VAT exemption applies for goods and services provided to seagoing vessels engaged in petroleum related operations.
- The description of contents section of the packing list & pro-forma invoice shall state: "ship spares in transit" or "ship stores in transit".

#### The following documentation shall be included in all shipments when applicable:

- ✓ English proforma invoice and packing list including corresponding custom tariff code (Ref: HS-Code).
- Country of Origin (COO).
- ✓ Safety Data Sheet (Ref: REACH-regulation / GHS / CLP).
- ✓ Material Declaration and Suppliers Declaration of Conformity (Ref: EU SRR / HKC).
- ✓ For marine equipment bearing the wheel mark<sup>™</sup>; EU Declaration of conformity (Ref: MED).

#### IMPORTANT: Inventory of Hazardous Material (IHM):

- ✓ With reference to EU SRR, products sold to Solstad Offshore ASA or any of its subsidiaries shall not contain any of the prohibited Annex I listed hazardous materials (Asbestos, Polychlorinated biphenyls (PCB), Ozone depleting substances, Organotin compounds, or Perfluoro octane sulfonic acid (PFOS).
- Regarding Annex II listed hazardous materials (Cadmium, hexavalent chromium, lead, mercury, polybrominated biphenyl (PBB),polybrominated diphenyl ethers (PBDE), polychlorinated naphtalenes, radioactive substances, shortchain chlorinated paraffins (Alkanes, C10-C13 chloro), and brominated flame retardant (HBCDD)), suppliers should avoid supplying products to Solstad Offshore ASA or any of its subsidiaries containing these materials. Notwithstanding the above, if a product sold to Solstad Offshore ASA or any of its subsidiaries contains any Annex II hazardous material above the specified threshold values, the supplier shall complete a Material Declaration
  - (MD) and Supplier Declaration of conformity (SDOC) for the product by taking into account the guidelines in MEPC 269 (68).
- ✓ When relevant in respect of the above, the MD and SDoC shall be delivered together with the order confirmation. The absence of MD and SDoC will be regarded by Solstad Offshore ASA and its subsidiaries as confirmation by the supplier that the product does not contain hazardous materials above relevant threshold values.

Please confirm order as soon as possible and no later than two (2) working days after it is received.
